

## VILLEROY & BOCH KITCHEN SINKS

STRIKINGLY STYLISH  
& OUT TO IMPRESS

# VILLEROY & BOCH

ALWAYS A GOOD CHOICE...

## VILLEROY & BOCH

### Design, functionality and quality

Whether you prefer a timeless classic design such as a traditional Farmhouse sink; the curves of a Cisterna design; or the modern, sleek lines of the Subway range; there's a stylish sink for you.

Ceramic sinks from Villeroy & Boch are not only beautiful, but also extremely practical and hardwearing. With inset and undermount styles; single, one and a half or double bowl options; and classic white or modern fossil colour choices, we have an elegant sink for you.

### Great design without compromise

All Villeroy & Boch ceramic sinks provide timeless beauty and lasting quality as standard. With high impact and scratch resistance, the risk of damage is minimal - ensuring a clean and hygienic surface that stands the test of time.

In addition, the unique Villeroy & Boch CeramicPlus surface finish available on Subway 60 SU & XU sinks provides further durability and robustness, including enhanced resistance to extreme temperatures, the reduced need for cleaning agents, and a scratch-proof surface.

### Complement your sink

There's more to a stylish kitchen than a sink, including the surface it sits in and pairing it with the right tap.

The wide range of designs and installation options of Villeroy & Boch sinks means they're versatile enough to be installed into a variety of different worksurfaces and materials including wood, solid surface and quartz. With this in mind, we've combined a selection of sinks with a number of different surfaces and taps to help inspire your kitchen ideas. With traditional solid wood worksurfaces from Tuscan; premium quality M-Stone which offers a unique blend of natural stone particles and resin; and the unrivalled aesthetics of Encore solid surface worktops - all available from IDS - you can be sure to make a style statement whatever your tastes.

CLEVER DESIGN

WITHOUT COMPROMISE.
