# FAUS AQUA-0

Our FAUS AQUA-0 technology with its impermeable surface provides water-resistant laminate flooring for up to 72 hours.

## WATER-RESISTANT

Our high-density board is water-repellent treated to ensure that any board expansion is kept to a minimum and less than 9%.

## HERMETIC FIXING

Thanks to our anchored click system, a completely air-tight joint is always achieved

## JOINTGUARD

With its pressed bevelled edging, floor joints are protected by overlay and decorative paper.

## SEALED EDGES

Surfaces are impregnated with paraffin to repel moisture and protect the board.

## RESISTANCE & DURABILITY

For technical specifications, please visit:  
*Informations techniques:*  
[www.faus.international](http://www.faus.international)

## APPLICATIONS

All these technological advances make our FAUS flooring the ideal surface for all types of room and interior-design projects.

# FAUS LAMINATE FLOORING ADVANTAGES

## ABRASION RESISTANCE AC6 / AC5

FAUS laminate floors are characterised by high resistance to wear and abrasion.

## CLASS OF USE 33

Thanks to the technical properties and quality of the materials used, Class 33 certification ensures suitability for use in high traffic areas.

## FLAME RETARDANT

Resistant to fire. Due to the treatment the board receives in its manufacturing process, FAUS floors are certified as Euroclass Bfl-s1 (EN13501-1).

## ANTISTATIC

Manufactured with properties that help prevent or eliminate static electricity in the room, FAUS floors help promote comfort and well-being in any situation.

## HDF "HIGH DENSITY FIBERBOARD" WITH WATER-REPELLENT TREATMENT

A core board which is composed of water-repellent resins that prevent swelling of the board.

## SEALING EDGES AROUND THE PERIMETER

The entire surface of the FAUS anchoring system is impregnated with a paraffin that repels moisture and protects the board in the event of occasional filtration.

## ULTRA MATT

FAUS Flooring is manufactured with an intense anti-fingerprint matt finish, which avoids finger marks.

## HIGH SURFACE RESISTANCE

All FAUS floors have a high surface resistance to impact, wear, scratching and burns.

## ANTIALLERGIC AND ANTIBACTERIAL

Due to the composition of FAUS products, they have antiallergic and antibacterial properties, which make them the ideal floor for families with children.

## SUITABLE FOR FLOORS WITH UNDERFLOOR HEATING

FAUS laminate floors are fully compatible with underfloor heating systems.

## HEALTHY FLOORING

SCS Global Services, the company that regulates indoor air quality, grants FAUS the Indoor Air Quality certificate SCS-EC10.3-2014 v4.0.

## ENVIRONMENTALLY FRIENDLY

With the FSC® and PEFC™ certifications, FAUS guarantees that all its products are manufactured in a sustainable and respectful manner.

## AQUA-0

Our FAUS AQUA-0 technology with its impermeable surface provides water-resistant laminate flooring for up to 72 hours.

# FAUS PATENTED TECHNOLOGIES

## MICROBEVEL

Thanks to this technology, FAUS flooring perfectly reproduces the microbevels created by real wood flooring planks.

## REALFEEL

Hyper realistic floors that emulate every detail of the original materials. Touch every vein, knot or pore of the wood with the tips of your fingers.

## INTERPLANK

Patented technology allows the designs to form patterns beyond regular planks, such as chevron and herringbone.

## JOINTGUARD

This technology allows the edges of the planks to be protected, avoiding their deterioration due to rubbing and footsteps.

## ULTRA MATT

Get the worn effect of sawn wood with the new Ultra Matt manufacturing technology. Manufactured with an intense anti-fingerprint matt surface. It is also extremely hardwearing and durable.

# PATTERNS THAT MAKE US UNIQUE

Each unique and exclusive design feature of FAUS flooring is created with much care by our experts. They represent the authentic patterns offered by original materials, achieving a realism that nobody else in the market is able to offer.

## **FAUS COLLECTIONS**

FAUS collections have been created with care by hand to last over time while maintaining natural beauty and simplicity. We invest all our resources and efforts in designing every detail of each piece, applying unique manufacturing technologies and selecting the materials with the highest technical rigour.

As a result, we obtain inimitable decorative solutions: exclusive designs with a high degree of sophistication. We aspire to align FAUS floors with our customer's lifestyle.

# MASTERPIECES

AC6 / JOINTGUARD / MICROBEVEL /  
INTERPLANK / AQUA-0 / LIFETIME WARRANTY

Fashionable and chic designs inspired by the European palaces of the 18th and 19th century, skilfully manufactured to recreate grand Chevron and Herringbone designs in a broad colour palette.

## CHEVRON

-

Offering carefully selected shades, full of realism and the highest quality technical characteristics.

S172432 / 1180 x 292 x 8mm  
2.07 m<sup>2</sup> per pack  
6 planks per pack

# ACCESSORIES AND INSTALLATION

SEALER CLICSEAL

## DRY KIT

Our laminate floors are suitable for kitchens and bathrooms thanks to our FAUS AQUA - 0 technology, but as an extra precaution to ensure full protection against water, we offer the CLICSEAL DRY KIT for use in extreme wet areas. ie shower, entrance, dishwasher/laundry areas, etc...

## WARRANTY\*

To ensure the durability of FAUS FLOORING it is essential to carry out the following:

- The installation of a suitable underlay.
- Maintain an expansion gap around the perimeter of the facility and around any fixed objects.
- Daily cleaning with a vacuum or mop. When using a wet mop, this should always be warm and drained.
- Do not use ammonia, bleach or soap products. Use only neutral PH non-abrasive detergent.
- Check installation and maintenance instructions on [www.faus.international](http://www.faus.international)
- Commercial Use Warranty 5 years.
- Kitchens & Bathrooms Warranty 5 years.

*\*In accordance with the warranty conditions specified at [www.faus.international](http://www.faus.international)*
