Raven Black (AP) L031

Premium Star

Fundermax presents: the UV-coated Premium Star panels with the surfaces Aptico (AP) in super matt, and Supergloss (SG) with mirror gloss effect. Trendy surfaces that raise lacquered panels to a completely enhanced level of quality and make every interior dream come true with their unobtrusive and elegant appearance.

The material makes a name for itself not only with its product quality, stylish colours and surfaces, but also for the design possibilities it offers. The success speaks for itself: professional users have already used it to create millions of pieces of furniture, kitchen fronts, partitions and more.

- Long lasting colour thanks to multi-layer lacquer
- UK stocked range of 5 popular decors in AP (19mm) and SG (19.3mm)
- No minimum order quantity (MOQ) applies to UK stocked range
- Remaining 7 decors, and other thicknesses, available on an extended lead time (MOQ applies)
- Samples available on request

Surface Aptico (AP)

Leaves impressions, not fingerprints: The patented technology not only ensures an aesthetic matt finish, but the anti-fingerprint effect also ensures that it stays beautiful for a long time. In addition to being pleasant to the touch, the Aptico surface is easy to process and particularly durable. But as we know, life leaves its marks, so thankfully any superficial micro-scratches can be removed through thermal repair.

- Super matt finish with anti-fingerprint properties
- Thickness: 10-25 mm (19mm in stock) – single sided
- Size: 2800 x 2070mm
- Core material: FSC® certified chipboard P2 emission class O5

Applications

Suitable for horizontal and vertical applications in interior design.

Features and benefits

- Anti-fingerprint
- Low light reflection
- Matt structure with a warm feel to the touch
- Resistant to scratches and abrasions
- Easy to process
- Easy to clean
- Resistant to solvents and household cleaners

Surface Supergloss (SG)

Interior design strives for maximum aesthetics. This is achieved with the Supergloss surface, because nothing else is glossier! Elaborate technical processes and resin formulations ensure this unique effect, which outshines every other high-gloss surface on the market.

- High gloss mirror finish
- Thickness: 10.3 – 25.3mm (19.3mm in stock) – single sided
- Size: 2800 x 2070mm
- Core material: FSC® certified MDF E1

Applications

Suitable for vertical decorative applications in interior design.

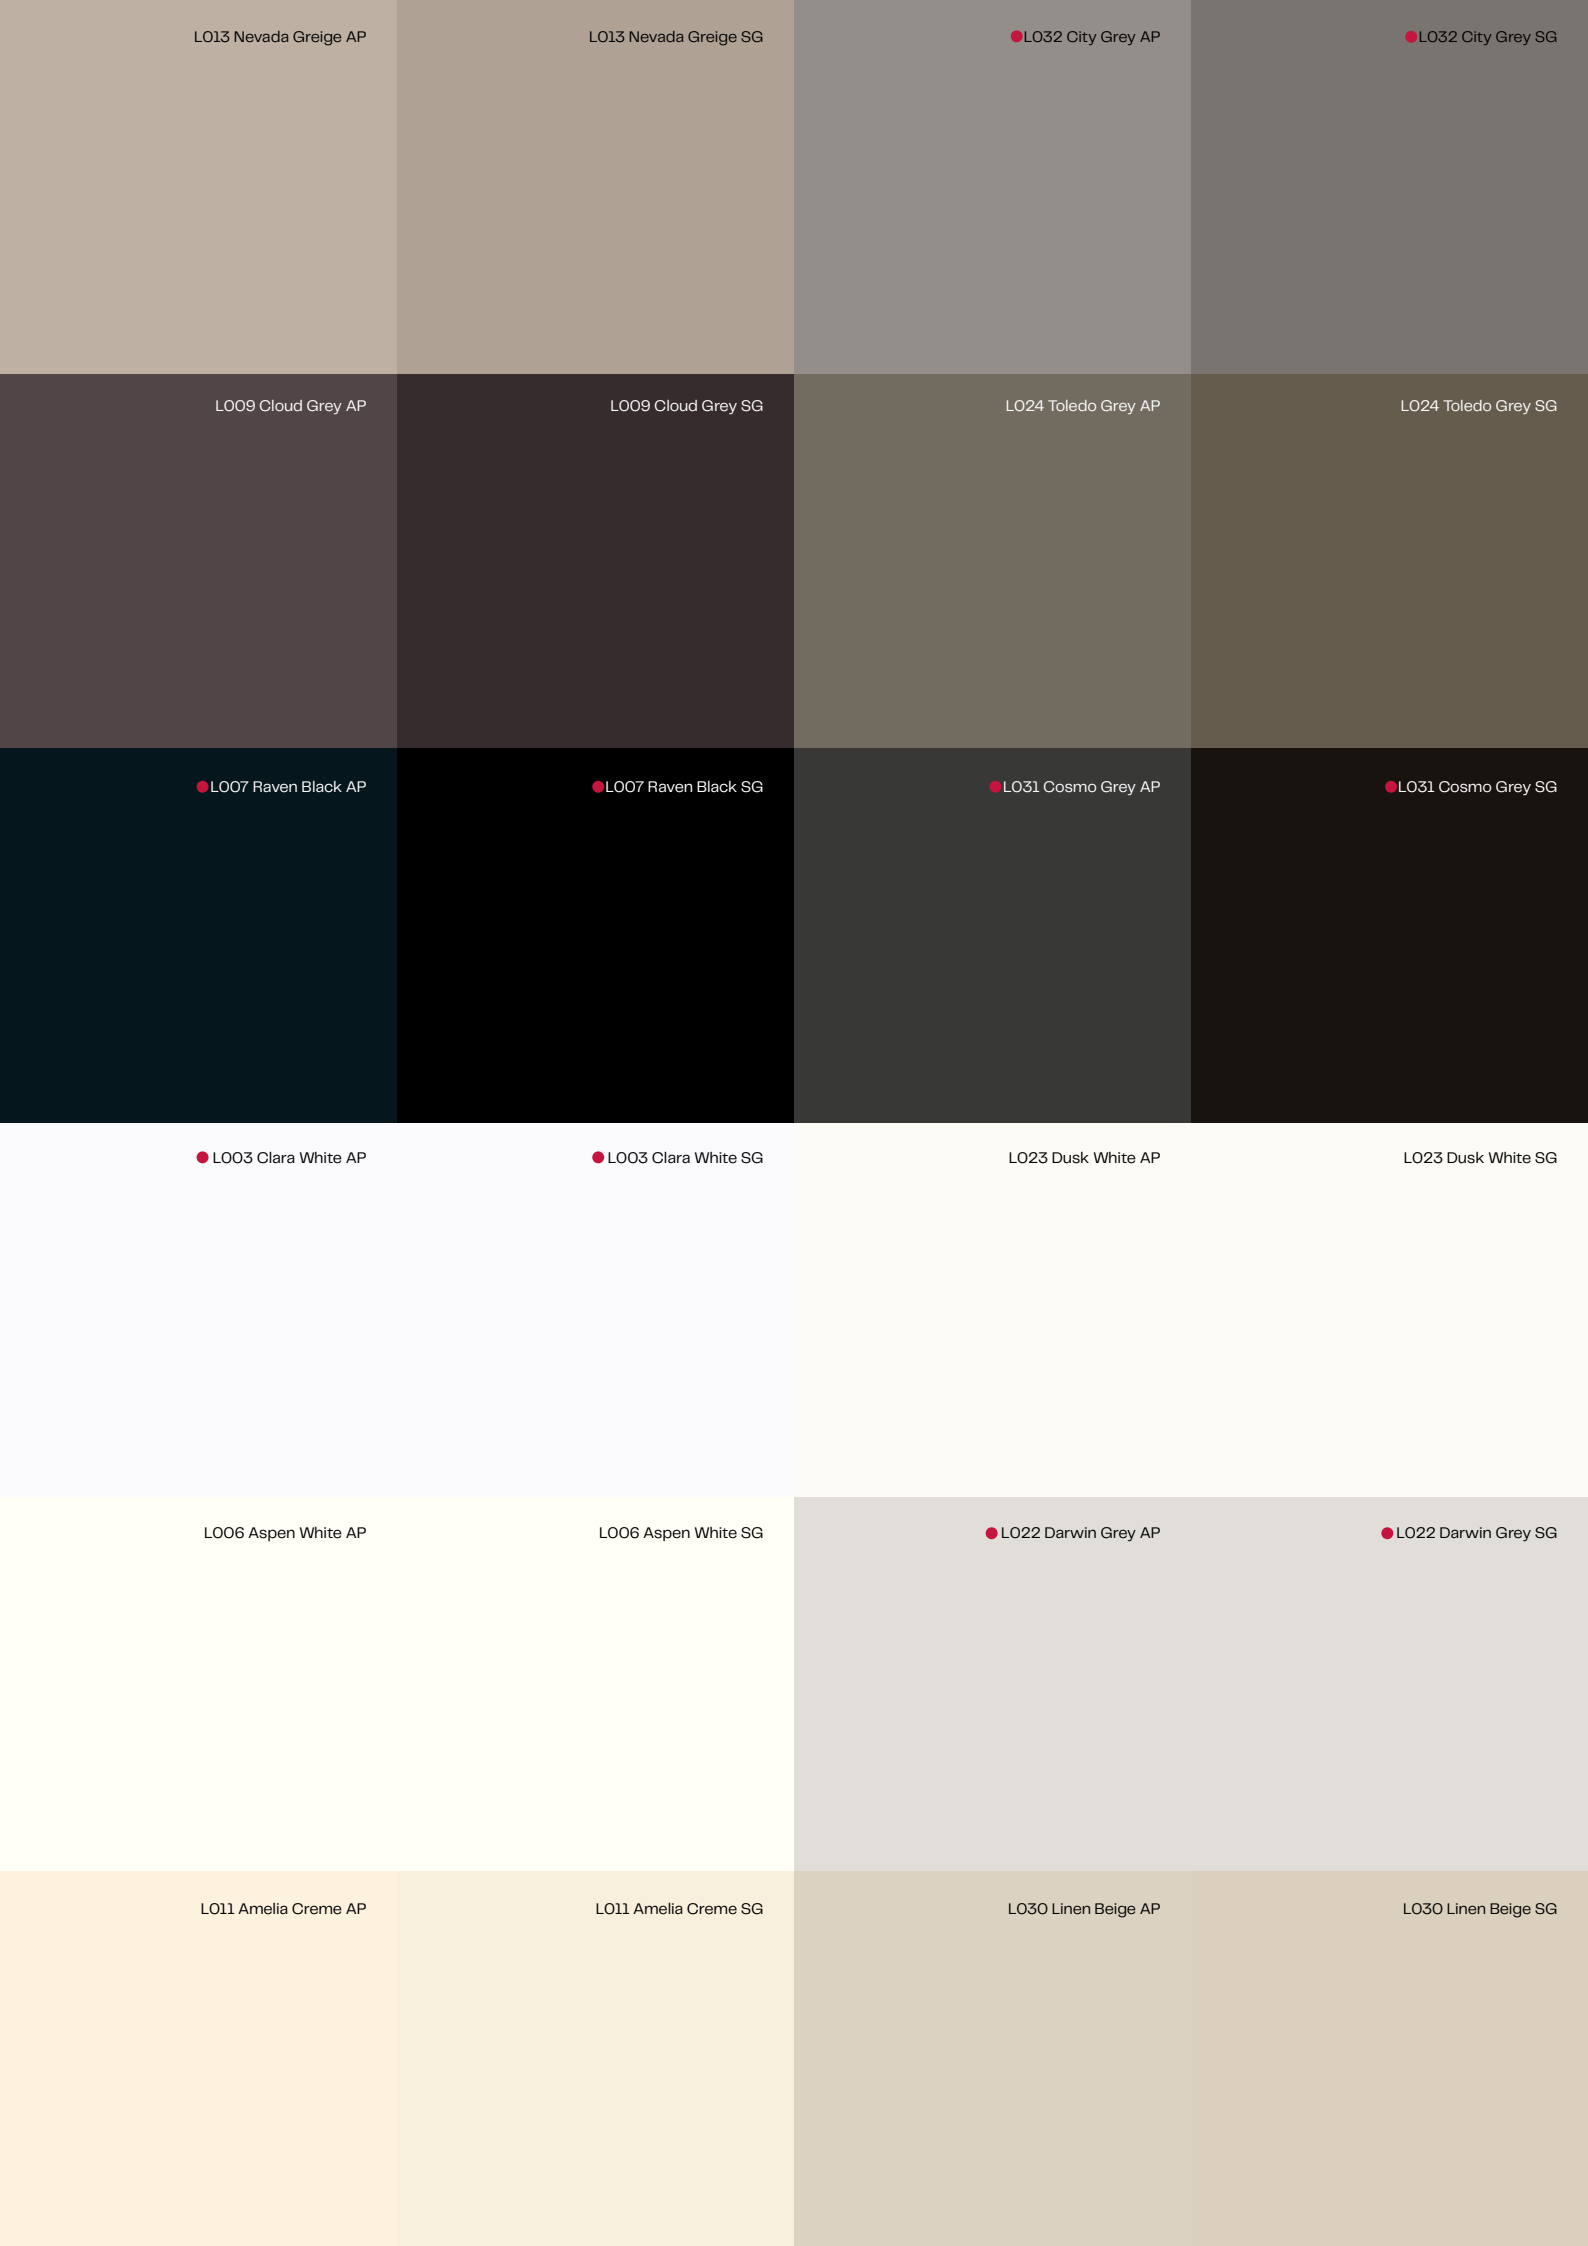

Features and benefits

- Highest gloss on the market
- Highly resistant to heat
- Resistant to chemical stress
- Resistant to solvents
- Resistant to scratches
- Easy to clean
